Type:	Functional	Severity:	Major	Priority:	Medium
Environment:	Google Chrome, version 127.0.6533.72 Windows 10 Version 22H2 DevTools				
Summary:	Incorrect operation of the movie preview pop-up window.				
Description:	The movie preview pop-up window of incorrect size opens on screens with zoom levels of 80%, 100%, and 110%.				
	The movie preview pop-up window on the "My Library" page opens with incorrect content.				
Pre-conditions:					
	1	The website page is opened. <a href="https://goitstudentsworks.github.io/js_70_melvinsz/library.html#">https://goitstudentsworks.github.io/js_70_melvinsz/library.html#</a>			
	2	Content from the "Home" page has been added to the "My Library" page after the 20th movie.			
	3				
Steps to reproduce:					
	1	Open the movie preview pop-up window on the specified page with zoom levels of 80%, 100%, and 110%.			
	2	Inspect the size of the pop-up window.			
	3	Analyze the content of the pop-up window.			
	4				
	5				
Actual result:					
The movie preview pop-up window is the wrong size with incorrect content.					
Expected result:					
The pop-up window with the movie preview is the correct size with the correct content.
